Backend: ASP.NET Web Forms, ASP.NET Core, ASP.NET Web API, Razor Pages, REST APIs, JWT

Frontend: Angular, HTML5, CSS3

Database: SQL Server, Entity Framework, Stored Procedures, Functions, Views, Query Optimization

Tools: Visual Studio, Postman, TFS, Git

Concepts: OOP, SOLID, Dependency Injection, LINQ, Agile/Scrum

PROFESSIONAL EXPERIENCE

Senior Software Engineer | DigiSME Pvt Ltd | Nov 2022 – Present

- Develop and maintain HRMS modules (Leave, Claims, Appraisal and HR) using **ASP.NET Web Forms, C#, REST APIs and SQL Server**.
 - Resolved **400+ production issues** and implemented multiple **customer enhancements**.
 - Optimized **REST APIs and SQL queries** for better application performance.
 - Integrated Angular-based **E-Schedule Phase I with Malaysia HRMS Payroll** for automated payroll calculation.
 - Resolved production issues in the Angular E-Schedule application and implemented SSO-related UI changes using Entity Framework.
 - Contributed to the development and maintenance of the **Single Sign-On (SSO)** application built using **ASP.NET Core Razor Pages, C#, SQL Server and JWT Authentication**.
 - Completed successful SSO production go-live and continue to deliver new enhancements and production bug fixes.
 - Collaborated with QA and Business Analysts throughout SDLC. Used TFS for HRMS and Git for E-Schedule source control.
-

PROJECTS

HRMS – ASP.NET Web Forms, REST APIs, SQL Server

E-Schedule – Angular, Entity Framework, Git

SSO – ASP.NET Core Razor Pages, JWT Authentication

EDUCATION

B.Tech – Information Technology

Sri Sairam Engineering College (2019–2023)

Chennai, India

Aug 2019 – Mar 2023
